Professional Experience –

Stanford University | Cloud Operations Analyst, Technology Consulting Group (TCG) 11/2019 - Present

- Provided AWS consultations and collaborated with Stanford teams to define and document infrastructure requirements, resulting in aligned and effective architectural planning for various applications.
- Engineered an immutable deployment solution using Elastic Beanstalk, integrating CI/CD practices and decoupling.
- Implemented cost-saving measures, including RIs, SPs, CUDs, VM family updates, instance right-sizing, disks, etc.
- Created client-facing dashboards for utilization and cloud spend; analyzed the benefits of amortizing RI purchases.
- Created cost estimates and set budget alarms for cloud deployments, preventing overruns.
- Evaluated client data to select vendors and storage classes; applied lifecycle rules for cloud-native solutions, resulting in efficient data management and cost-effective solutions.
- Created and configured hundreds of hardened AWS accounts using SCPs via AWS Organizations.
- Streamlined multi-account access via switch roles, resulting in enhanced security and efficiency in Cloud Ops.
- Remediated security-related incidents for multi-cloud accounts via GuardDuty and Wiz findings.
- Performed package upgrades and monthly security updates using automation for Linux and Windows VMs.
- Configured and resolved technical SAML issues for various SaaS integrations with the Stanford SP database.
- Managed university-wide endpoint backup service with ~20,000 users and trained support personnel.
- Document systems infrastructure and management of the team's SaaS products via runbooks.

UCSF Mission Center Building | Enterprise IT Cloud Analyst Intern 01/2019 - 09/2019

- Deploy a centralized logging system in AWS using Terraform.
- Managed Drupal websites for a variety of UCSF websites.
- Handled AWS billing and purchased Reserved Instances / Savings Plans for the CCoE group within central IT.

UCSF Parnassus Campus | IT Field Service Intern 10/2018 - 12/2018

- Assist IT field service technicians with computer deployments, shadowing on break-fix tickets in the field, and using IT Service Management software to document the delivery of IT services to our customers.

Technologies and Skills –

- Data Visualization & FinOps Tools: QuickSight, Athena, RedShift, Excel
- Automation Tools: Terraform
- SaaS: CloudCheckr, Cloudability, Site24x7, Wiz, Wasabi, CrashPlan (Code42), Qualys, OpsGenie, ServiceNow, Jira, Atlassian, Vault, BigFix, SCCM, Slack, HubSpot, Slab, Airtable, 1Password, GitLab, GitHub, Splunk

Certifications –

- | | |
|---|---------|
| - FinOps Certified Practitioner | Jul '24 |
| - FinOps Certified Engineer | Aug '24 |
| - FinOps Certified FOCUS Analyst | Aug '24 |
| - AWS Certified Solutions Architect (SAA-C01) | Mar '19 |
| - Microsoft Certified: Azure Fundamentals | Aug '24 |
| - Google Cloud Digital Leader | Aug '24 |
| - AWS Certified Cloud Practitioner (CLF) | Dec '18 |

Education –

- | | |
|---|---------|
| - University of California, Santa Cruz, B.S. Computer Science: Computer Game Design | 06/2018 |
|---|---------|
